Over Clean

Over Clean is an innovating device which allows us to organize passages, for example in the restrooms, to check the state of cleanliness and ensure the customers' satisfaction.

Putting into use

When the **Over Clean** works, the display in hours and minutes evolves in the time.

Beyond 20 minutes, the main display flickers.

The badge enables to reset the main display and the time, which has elapsed, is memorized by the second display.

Possibility to add from 1 to 4 reset boxes working on the same display.
According to the configuration of the building, this enables you to put one in each men or ladies restroom on the ground floor, and also on the first floor.

The main strengths + of Over Clean

- Easy to install and use
Fast installation in all kind of buildings.
- Double display with the historical of the times.
Communication between the wireless boxes (range 100 meters).
- Over Clean is modifiable according to the customer's request: duration between each control, and personalization of the facade.

Guarantee 1 year
ASS (After Sales Service) except for the battery and damage due to the users and other people

48 months of autonomy for the battery of the reset box
